

## MUST BE CANDIDATE TO GET OHIO'S VOTE

Preferential Primary to National Convention in Buckeye State Prevents Jobbing.

By Gilson Gardner.  
CLEVELAND, O., July 28.—Will Elihu Root give his written consent to be a candidate for president? He will have to if he gets any delegates from Ohio. So will Woodrow Wilson, Hiram Johnson of anybody else who proposes to take a hand in the presidential game.

Ohio has a new constitution and one of its provisions is that delegates to presidential conventions shall be chosen at primaries and that every candidate for delegate shall be obliged to announce his first and second choice for president and that such first and second choice must give his consent in writing; otherwise his name cannot be used.

This was intended to prevent the practice of taking a lot of dummy delegates to a national convention and trading them in deals between bosses. How it will work out will be interesting to see. The law was intended also to bring all candidates into the open and to make it less easy to force the presidential office on some modest but weakly resisting star.

John D. Fackler of Cleveland, early active in the progressive party, had a hand in getting this amendment into the new constitution and he says he is looking forward with pleasure to testing it.

"Will the progressive party have a presidential candidate?" Mr. Fackler repeated. "I should say it would. My candidates for first and second choice are Roosevelt and Johnson. If Roosevelt will consent to run again of course he can have the delegates from Ohio. But if for any reason he does not want to make the race, Johnson is the logical man. He has carried out in his state the promises of the progressive platform and the people show how well they think of that kind of man by electing him by nearly 200,000 majority. Johnson made a fine impression when he campaigned here as vice presidential candidate three years ago. And I predict he would poll a big vote if nominated for the presidency."

## Last American Victim of German U Boat

The American freighter Leelanaw, which according to dispatches from London, was torpedoed by a German submarine off Kirkwall, Scotland, and sunk July 25. The commander of the German craft ordered Capt. D. B. Delk and his crew of 32 men to abandon their ship and then sent her to the bottom. The captain and the crew took to their boats and reached Kirkwall in safety.

The Leelanaw was owned by the Harby Steamship Co. of New York and was enroute from Archangel, Russia, to Belfast, Ireland, with a cargo of flax. She had carried a cargo of cotton from the United States to Archangel previous to loading with the flax.

## ANTI-CROWING DEVICE

South Pasadena May Prevent Boasting by Roosters.

PASADENA, Calif., July 28.—An automatic anti-crowding device is under consideration by the city trustees of South Pasadena and may be prescribed by law in order to prevent the roosters of that city from indulging in vocal exercise. It is a well known fact that to crow successfully, the rooster is obliged to elevate his head. The South Pasadena trustees propose to compel people, who have chickens to build their roosts so near the top of the coop that the rooster won't have any room for raising his head. If he tries to—a sudden vision of stars will stop the crow before it becomes a squawk.
